CABIN AIR FILTER IDENTIFICATION

Typical illustration of a side view of O.E.M. air filter

Colder Air. . . Is Just A Filter Away!

- Easy and quick installation!
- Air filters remove certain contaminants from the air including pollen and dust particles as well as odors from diesel exhaust, fuel fumes, livestock-carriers, etc.
- Passenger compartment air is routed through the compartment air filter; both outside air and recirculated air.
- Reduction in air flow which may occur more quickly in dusty areas indicate that the filter needs to be replaced.

Evaporator - Cabin Air Filters
