

SKF

**Reduce down time
& costly repairs
with the SKF
Heavy Duty
Tensioner.
Durability and
reliability you can
count on.**

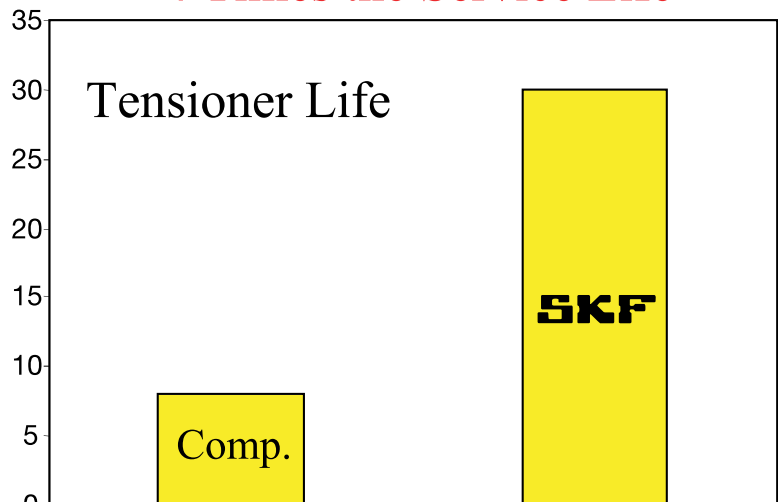

**Get the job done fast —
and right — with an SKF
Heavy Duty Tensioner!**

SKF Heavy Duty Tensioners

- SKF's Aftermarket Tensioners are the most robust tensioners available (+400k mile durability)
- Field and Lab testing confirms they last up to 3 times longer than competitive flat spring tensioners
- SKF's aftermarket tensioners cost the consumer about 1/3 less than the OE service part
- The SKF design is the result of cooperation between the world's largest tensioner supplier, OE manufacturers and fleet operators
- HD Idlers also available
- Provides longest Service Life available in aftermarket.

4 Times the Service Life

*Based on B-Series Cummins School Bus Fleet; High Percentage Stop and Go.

SKF HD TENSIONERS

LEADING TECHNOLOGY PROVIDES LONGEST LIFE AVAILABLE

- Patented “Proportional Dampening” with round spring technology maintains constant tension and system dampening for extended belt and component life.
- Increased ball bearing grease fill with special high temperature synthetic grease is designed specifically for heavy truck.
- Patented “Noose Ring” technology reduces arm motion for improved system life.
- Labyrinth seal prevents contamination ingress for extended life.
- Machined forged steel pulley that provides a precision running surface for quieter performance.
- Larger series tandem deep groove ball bearings provide higher load capacity and longer service life than the competition’s light duty automotive bearings.

30% More Bearing Life
